

March 19, 2020

Dear Sheridan County YMCA Members,

With the closure of our public schools and the recommendation to close by YUSA, we suspended operations effective Monday, March 16, 2020.

First and foremost, thank you for your patience. It's been a complicated moment for everyone, and we appreciate you bearing with us. **Right now, we're asking you to stick with us if you can.**

With our facility closed out of caution, we're shifting our work to support critical needs:

- Supporting our employees and facilities
- Sanitizing our facility
- Identifying the areas of greatest need for families
- Supporting members through online workout & activity platforms
- Making well-being calls to our most vulnerable members

No action is required from you to be a sustaining member. We can't thank you enough for your support. If you are not able to continue your membership, we understand. Contact the Y and we will make it right.

Take care and know we are thinking about you,

Liz Cassidy
